

Change Tariff – TCODE: EC30

Project Name: Utilities-EC30-Change Tariff

Version	Description
1.0.0	Change Tariff – EC30 (TCODE)

INTRODUCTION

This program is used to change tariffs by EC30 transaction. This entire process will be automated using the Bot.

- Will be supported for SAP Logon on- Premise.

IMPORTANT NOTE

General

To use this sample, you need to have a basic knowledge and understanding of SAP Intelligent Robotic Process Automation tool. At the very least you need to know how to import a project, add and modify activities, build the solution, and export a package.

Required Inputs:

Input Field	Description
Installation	The Installation Number
Key Date	The New Date
Rate Category	The Rate Category
Rate Type	The Rate Type
Fact Group	The Fact Group

DESCRIPTION

Automate the process of change tariff using EA30 transaction. This bot would provide the agent to seamlessly change the tariff of that customer who might have asked that as part of a customer call.

Key Process Flows

- The bot takes input details from the user.
- Opens EC30 transaction.
- Changes the tariff.

Business Benefits

- Reduce manual effort—an employee can concentrate on the more important tasks
- Ensure fast changing of tariff.

VERSION

The product versions used to generate this sample are detailed below. This sample is provided “as is,” with no warranty that it will work correctly with other versions. If some versions of your software are different (such as the tool version or the target application version), you may need to recapture the application and/or update the workflow activities.

SAP Intelligent RPA

The table below details the versions used to generate this sample.

Software	Version
Cloud Studio	2.0
Desktop Agent	2.0.14.60

Target Application	Version
Saplogon.exe	770

PREREQUISITES

Global setup:

SAP Intelligent Robotic Process Automation must be installed in accordance with the installation guide available [here](#). An SAP Intelligent RPA Factory must be available with a suitable environment and a hierarchy. All information can be found in the “Getting Started” section accessible via the above link.

Configuration:

The bots are designed to be executed in attended mode only.
