GENERAL UPDATE INFORMATION

Due to dependencies of the integration flows and the value mappings provided with this predefined integration scenario, only the update of the complete package is supported. Updating individual artifacts can lead to unforeseen errors.

PACKAGE VERSION 2602 (HOTFIX 2026-05-22)

Updated Integration Flows

1. Notify Plant Maintenance Order Update from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.1
 - Added support to suppress fields which are not available in S4HANA Cloud OData metadata
2. Replicate Checklist Instance from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.1
 - Added support to suppress fields which are not available in S4HANA Cloud OData metadata
3. Replicate Checklist Template from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.1
 - Added support to suppress fields which are not available in S4HANA Cloud OData metadata
4. Replicate Confirmed Maintenance from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.2
 - Added support to suppress fields which are not available in S4HANA Cloud OData metadata
5. Update Maintenance Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.1
 - Added support to suppress fields which are not available in S4HANA Cloud OData metadata

PACKAGE VERSION 2602 (HOTFIX 2026-02-03)

Updated Integration Flows

1. Replicate Confirmed Maintenance from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.1
 - Suppressed additional fields.

PACKAGE VERSION 2602 (2026-01-13)

New Integration Flows

1. Notify Plant Maintenance Order Update from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.0
 - New Integration flow to support replication of updates to maintenance activities from SAP Field Service Management to SAP S4HANA Cloud Public Edition
2. Replicate Confirmed Maintenance from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.0

- New Integration flow to support confirmation of maintenance activities from SAP Field Service Management to SAP S4HANA Cloud Public Edition
3. Update Maintenance Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.0
 - New Integration flow to support replication of newly created maintenance activities from SAP Field Service Management to SAP S4HANA Cloud Public Edition.
 4. Notify Service Order Updates in Bulk from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.0
 - New Integration flow to support replication of bulk updates on service activities from SAP Field Service Management to SAP S4HANA Cloud Public Edition

Updated Integration Flows

1. Route Payload from SAP Field Service Management to SAP S4HANA Cloud
Version 5.5.0
 - Support for Plant Maintenance orders integration
 - New route added for FSM bulk events for activities
2. Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud
Version 4.7.3
 - Added support for pre-exit custom processing

PACKAGE VERSION 2508 (HOTFIX 2025-11-06)

Updated Integration Flows

1. Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management
Version 5.9.5
 - Parameterized ChgdWhenReleased event message delay time.
2. Replicate Attachments from SAP S4HANA Cloud to SAP Field Service Management
Version 1.0.2
 - Updated logic to skip text/url mimetype attachments.

PACKAGE VERSION 2508 (HOTFIX 2025-09-25)

Updated Integration Flows

1. Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management
Version 5.9.4
 - Minor fix in Check Transaction Type script.

PACKAGE VERSION 2508 (HOTFIX 2025-09-04)

Updated Integration Flows

1. Replicate Attachments from SAP S4HANA Cloud to SAP Field Service Management
Version 1.0.1
 - Fixed attachment value mapping source and target reference.
2. Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management
Version 5.9.3
 - Updated 'durationinminutes' hours to minutes conversion in message mapping.

PACKAGE VERSION 2508 (2025-07-31)

New Integration Flows

1. Replicate Attachments from SAP S4HANA Cloud to SAP Field Service Management
Version 1.0.0
 - New Integration flow to support replication of attachments in service order and items from SAP S4HANA Cloud Public Edition to SAP Field Service Management
2. Replicate Checklist Instance from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.0
 - New Integration flow to support replication of checklist instances from SAP Field Service Management to SAP S4HANA Cloud Public Edition.
3. Replicate Checklist Template from SAP Field Service Management to SAP S4HANA Cloud
Version 1.0.0
 - New Integration flow to support replication of checklist templates from SAP Field Service Management to SAP S4HANA Cloud Public Edition.

Updated Integration Flows

1. Check Configuration for Integration of SAP S4HANA Cloud with SAP Field Service Management
Version 1.2.2
 - Added support for OAuth authentication in '*iFlowConfiguration*' & '*getIFlows*' receivers.
2. Create Business Partner Relationship
Version 2.3.2
 - Update multiple companies fetch logic for business partners having multiple roles.
3. Replicate Business Partners
Version 2.4.2
 - Update multiple companies fetch logic for business partners having multiple roles.
4. Replicate Products
Version 3.4.2
 - Update multiple companies fetch logic when division code is not set for material.
5. Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management
Version 5.9.2
 - Added new external parameter '*Enable Attachments Replication*' to support replication of attachments from service order and items in SAP S4 Cloud Public Edition to SAP Field Service Management.
6. Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud

Version 4.8.2

- Adjusted mapping when assignments are created on mobile.

PACKAGE VERSION 2502 (HOTFIX 2025-06-25)

Updated Integration Flows

1. Create Business Partner Relationship
Version 2.3.1
 - Updated mapping for 'emailAddress' and 'fax' fields.

PACKAGE VERSION 2502 (HOTFIX 2025-05-26)

Updated Integration Flows

1. Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud
Version 4.7.2
 - Updated 'setFSMHeader' script.

PACKAGE VERSION 2502 (HOTFIX 2025-03-26)

Updated Integration Flows

1. Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud
Version 4.8.1
 - Externalized private key alias parameter for client certificate-based authentication.
2. Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud
Version 4.7.1
 - Externalized private key alias parameter for client certificate-based authentication.
3. Replicate Service Call from SAP Field Service Management to SAP S4HANA Cloud
Version 1.3.1
 - Externalized private key alias parameter for client certificate-based authentication.
4. Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud
Version 4.8.1
 - Externalized private key alias parameter for client certificate-based authentication.

PACKAGE VERSION 2502 (HOTFIX 2025-02-28)

Updated Integration Flows

1. Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management
-

Version 5.9.1

- Added re-fetch Service Order logic for ChangeWhenReleased event.

PACKAGE VERSION 2502 (2025-01-24)

Deleted Integration Flows

1. Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management
Version 3.0.0

Deprecated Integration Flows

1. Replicate Asset Central Equipment
Version 1.2.0

Updated Integration Flows

1. Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud
Version 4.8.0
 - Synchronization of Multiple Equipment from Service Orders.
2. Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud
Version 1.3.0
 - Determination of FSM Company/Account based on incoming FSM request headers.
3. Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud
Version 4.7.0
 - Determination of FSM Company/Account based on incoming FSM request headers.
4. Replicate Service Call from SAP Field Service Management to SAP S4HANA Cloud
Version 1.3.0
 - Synchronization of Multiple Equipment from Service Orders.
 - Determination of FSM Company/Account based on incoming FSM request headers.
5. Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management
Version 5.9.0
 - Support for cancellation of SAP FSM Service Call and Activity when all items in the Service Order are rejected in SAP S4HANA.
 - Synchronization of Multiple Equipment from Service Orders.
 - Determination of FSM Company/Account based on incoming FSM request headers.
6. Route Payload from SAP Field Service Management to SAP S4HANA Cloud
Version 5.4.0
 - Determination of FSM Company/Account based on incoming FSM request headers.
7. Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud
Version 4.8.0
 - Determination of FSM Company/Account based on incoming FSM request headers.

Updated Value Mappings

1. Value Mapping Between SAP S4HANA Cloud and SAP Field Service Management

Version 1.5.1

- Added mapping for Rejection Codes from SAP S4HANA to SAP FSM

PACKAGE VERSION 2408 (HOTFIX 2024-11-25)

Updated Integration Flows

1. Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud
Version 4.7.2
 - Modified the header 'SAP_IsIgnoreProperties' to true without quotes because of changes in the ODATA adapter.
2. Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud
Version 4.6.1
 - Modified the header 'SAP_IsIgnoreProperties' to true without quotes because of changes in the ODATA adapter.
3. Replicate Service Call from SAP Field Service Management to SAP S4HANA Cloud
Version 1.2.1
 - Modified the header 'SAP_IsIgnoreProperties' to true without quotes because of changes in the ODATA adapter.
4. Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management
Version 5.8.2
 - Modified the header 'SAP_IsIgnoreProperties' to true without quotes because of changes in the ODATA adapter.
5. Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud
Version 4.7.3
 - Modified the header 'SAP_IsIgnoreProperties' to true without quotes because of changes in the ODATA adapter.

PACKAGE VERSION 2408 (HOTFIX 2024-11-11)

Updated Integration Flows

1. Replicate Business Partners
Version 2.4.1
 - Removed mapping for deleted indicator.
2. Replicate Products
Version 3.4.1
 - Removed mapping for deleted indicator.

PACKAGE VERSION 2408 (HOTFIX 2024-10-14)

Updated Integration Flows

1. Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud Version 4.7.2
 - Enabled exception handler and modified configuration to send all headers to SAP FSM in the HTTP adapter.

PACKAGE VERSION 2408 (HOTFIX 2024-10-03)

Updated Integration Flows

1. Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud Version 4.7.1
 - Externalized Timeout parameter in ODATA call under 'Service_Order_Item_Update' receiver.
2. Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud Version 1.2.2
 - Externalized Timeout parameter in ODATA call under 'S4HanaCloud' receiver.
3. Replicate Product Price Version 1.3.1
 - Bug Fix related to Price List deletion.
4. Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management Version 5.8.1
 - Externalized Timeout parameter in ODATA calls under 'S4HANA_Query' and 'S4HANA_Update' receivers.
5. Route Payload from SAP Field Service Management to SAP S4HANA Cloud Version 5.3.1
 - Externalized Timeout parameter in ODATA call under 'Read_Service_Order_Item' receiver.
6. Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud Version 4.7.1
 - Externalized Timeout parameter in ODATA call under 'S4HANA_Cloud_Read' and 'S4HANA_OData_Batch' receivers.

PACKAGE VERSION 2408

New Integration Flows

1. *Synchronize Multiple Company Mapping Configuration*
Version 1.0.0
 - Integration flow to synchronize the FSM Multiple Company Mapping configuration from SAP S/4HANA Cloud to SAP Cloud Integration

Updated Integration Flows

1. *Check Configurations for Integration SAP S4HANA Cloud with SAP Field Service Management*
Version 1.2.1
 - Updated checks for integration flows.

2. *Create Business Partner Relationship*
Version 2.3.0
 - Support for replication of objects to multiple companies in FSM based on externalized parameter 'EnableMultiCompanyReplication'.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
3. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
Version 4.7.0
 - ODATA adapter updated to the latest version.
4. *Replicate Business Partner Address*
Version 3.2.0
 - Support for replication of objects to multiple companies in FSM based on externalized parameter 'EnableMultiCompanyReplication'.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
5. *Replicate Business Partner Contact*
Version 2.4.0
 - Support for replication of objects to multiple companies in FSM based on externalized parameter 'EnableMultiCompanyReplication'.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
6. *Replicate Business Partners*
Version 2.4.0
 - Support for replication of objects to multiple companies in FSM based on externalized parameter 'EnableMultiCompanyReplication'.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
7. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
Version 4.6.0
 - ODATA adapter updated to the latest version.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap).
8. *Replicate Product Price*
Version 1.3.0
 - Support for replication of objects to multiple companies in FSM based on externalized parameter 'EnableMultiCompanyReplication'.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
9. *Replicate Product Stock*
Version 2.3.0
 - Support for replication of objects to multiple companies in FSM based on externalized parameter 'EnableMultiCompanyReplication'.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
10. *Replicate Products*
Version 3.4.0
 - Support for replication of objects to multiple companies in FSM based on externalized parameter 'EnableMultiCompanyReplication'.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
11. *Replicate Service Call from SAP Field Service Management to SAP S4HANA Cloud*
Version 1.2.0
 - ODATA adapter updated to the latest version.

- Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
12. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management Version 5.8.0*
 - Support for replication of objects to multiple companies in FSM based on externalized parameter 'EnableMultiCompanyReplication'.
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)
 13. *Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud Version 4.7.0*
 - Externalized 'FSM Host' parameter to support super domain(*.fsm.cloud.sap)

Updated Value Mappings

1. *Value Mapping for Master Data Between SAP S4HANA Cloud and SAP Field Service Management Version 1.2.1*
 - Added mapping to support different Business Partner Roles & Product Types

PACKAGE VERSION 2308 (HOTFIX 2024-05-17)

Updated Integration Flows

1. *Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud Version 4.6.2*
 - Updated payload sent to S/4HANA during duplication of activity from SAP FSM

PACKAGE VERSION 2308

Updated Integration Flows

1. *Create Business Partner Relationship Version 2.2.2*
 - Removed configurable parameter 'user'.
 - New configurable parameters for Account ID and Company ID
 - Externalized FSM request headers and timeout
2. *Replicate Business Partner Address Version 3.1.4*
 - Removed configurable parameter 'user'.
 - New configurable parameters for Account ID and Company ID
 - Externalized FSM request headers and timeout
3. *Replicate Business Partner Contact Version 2.3.1*
 - Removed configurable parameter 'user'.
 - New configurable parameters for Account ID and Company ID
 - Externalized FSM request headers and timeout
4. *Replicate Business Partners Version 2.3.1*

- Removed configurable parameter 'user'.
 - New configurable parameters for Account ID and Company ID
 - Externalized FSM request headers and timeout
5. *Replicate Product Price*
Version 1.2.1
- Removed configurable parameter 'user'.
 - New configurable parameters for Account ID and Company ID
 - Externalized FSM request headers and timeout
 - Client certificate-based authentication externalized.
6. *Replicate Product Stock*
Version 2.2.1
- Removed configurable parameter 'user'.
 - New configurable parameters for Account ID and Company ID
 - Externalized FSM DTO, request headers and timeout
7. *Replicate Products*
Version 3.3.3
- Removed configurable parameter 'user'.
 - New configurable parameters for Account ID and Company ID
 - Externalized FSM DTO, request headers and timeout
8. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
Version 5.7.0
- Support of service bundle item category SVB6
9. *Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud*
Version: 4.6.1
- Mapping for create/update Activity changed from actual duration to planned duration, see [SAP Note 3282444](#)
10. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
Version: 4.6.1
- Mapping for create/update Activity changed from actual duration to planned duration, see [SAP Note 3282444](#)

PACKAGE VERSION 2302 (HOTFIX 2023-02-10)

Updated Integration Flows

1. *Replicate Service Call from SAP Field Service Management to SAP S4HANA Cloud*
Version 1.1.1
 - Improved handling of FSM Payloads for service call creation without a person responsible
2. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
Version 4.5.1
 - Bug fix in script GetMaterialItemId.groovy" used in Mapping for Material Confirmations
3. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
Version 5.3.1
 - changed default value of parameter 'Handle Unplanned Items in Backend' to true
4. *Replicate Product Price*
Version 1.2.0
 - Externalized conditionType in Mappings
 - Fixed issue with Currency not replicating in certain

PACKAGE VERSION 2302

Updated Integration Flows

1. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
Version 5.6.0
 - Replication of repair orders to SAP Field Service Management enabled (see What's New)
 - The replication of the service items to activities in SAP Field Service Management now includes the service product (see What's New)
2. *Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud*
Version 4.6.0
 - The replication of activities to the service item in SAP S/4HANA Cloud now includes the service product (see What's New)
3. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
Version 4.6.0
 - The replication of activities to the service item in SAP S/4HANA Cloud now includes the service product (see What's New)
4. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
Version 4.5.0
 - Confirmation for repair orders enabled (see What's New)
 - Minor fixes
5. *Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud*
Version 1.2.1
 - Bug fix for filenames with UTF-8 characters
6. *Check Configurations for Integration SAP S4HANA Cloud with SAP Field Service Management*
Version 1.2.0
 - Checks updated

Updated Value Mappings

1. *Value Mapping Between SAP S4HANA Cloud and SAP Field Service Management*
Version 1.5.0
 - Mapping for repair order replication added

PACKAGE VERSION 2208 (HOTFIX 2022-12-14)

Updated Integration Flows

1. *Replicate Products*
Version 3.3.2
 - Bug fix for remarks data and {xsi:nil=true} issue
 - Remark type code externalized
 - Leading zeros removed from externalID
2. *Replicate Product Stock*
Version 2.2.0
 - Bug fix for concurrent request error
 - Support for bulk replication and filtering out special and batch stock, only unrestricted stock replicated

PACKAGE VERSION 2208.1 (HOTFIX 2022-08-05)

Updated Integration Flows

1. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud Version 4.4.1*
 - Correction of unplanned confirmation item determination logic
2. *Check Configuration for Integration of SAP S4HANA Cloud with SAP Field Service Management Version 1.1.1*
 - Checks for Contract integration flow removed

Deprecated Integration Flows

1. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management Version 3.0.0*

PACKAGE VERSION 2208

Updated Integration Flows

1. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management Version 5.5.0*
 - Support of execution status of service items reflecting the progress of the corresponding activities
 - General improvements
 - Bug fixes
 2. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud Version 5.3.0*
 - Support of execution status of service items reflecting the progress of the corresponding activities
 - Support of unplanned confirmation items managed by SAP S/4HANA Cloud
 - Bug fixes
 3. *Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud Version 4.5.0*
 - Support of execution status of service items reflecting the progress of the corresponding activities
 - Bug fixes
 4. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud Version 4.5.0*
 - Support of service item rejection through activity cancellation
 - Support of execution status of service items reflecting the progress of the corresponding activities
 - Bug fixes
 5. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud Version 4.4.0*
 - Support of unplanned confirmation items managed by SAP S/4HANA Cloud
 - Bug fixes
-

6. *Check Configurations for Integration SAP S4HANA Cloud with SAP Field Service Management Version 1.1.0*
 - Parameter updates
 - Check for master data integration flows enabled
7. *Replicate Business Partners Version 2.3.0*
 - Value mapping filter based on role implemented to restrict the business partner data replication to SAP Field Service Management
 - Pre-processing of contact data logic moved to reduce the number of ProcessDirect calls
8. *Replicate Business Partner Contact Version 2.3.0*
 - Pre-processing of payload moved to the *Replicate Business Partners* integration flow
 - Array type fields are added in XML to JSON converter
 - Unused blocks removed for general improvements
 - Communication-related data mapping moved from the *Replicate Business Partner Contact* integration flow to the *Create Business Partner Relationship* integration flow
9. *Replicate Business Partner Address Version 3.1.3*
 - Filter to stop processing if no address exists added
 - Array type fields are added in XML to JSON converter
 - General improvements related to performance and reliability
10. *Create Business Partner Relationship Version 2.2.0*
 - Support for the replication of deleted relationship
 - Filter to replicate only contact person relationship added
 - Array type fields added in the XML to JSON converter
 - Contact person contact details are mapped and extracted from the relationship assignment rather than from the contact person address
11. *Replicate Product Price Version 1.1.0*
 - Support for validity and filter based on the condition type

Updated Value Mappings

1. *Value Mapping for Master Data Between SAP S4HANA Cloud and SAP Field Service Management Version 1.2.0*
 - Added value mapping to map SAP S/4HANA role to business partner or contact type in SAP Field Service Management that is be used in the pre-processing script of the integration flows for the replication of business partners and business partner contacts
2. *Value Mapping Between SAP S4HANA Cloud and SAP Field Service Management*
 - File types for attachment replication adapted

PACKAGE VERSION 2202 (HOTFIX 2022-06-27)

Updated Integration Flows

1. *Value Mapping for Master Data Between SAP S4HANA Cloud and SAP Field Service Management version 1.2.0*

- Bug fix: Payload issue for the currency field with blank space

PACKAGE VERSION 2202 (HOTFIX 2022-06-10)

Updated Integration Flows

1. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
 - Bug fixes
2. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
 - Improved error handling

PACKAGE VERSION 2202 (HOTFIX 2022-04-07)

Updated Integration Flows

1. *Replicate Business Partners*
 - Bug fix: Contact person data is not sent to the *Replicate Business Partner Address* replication integration flow to stop failures
2. *Replicate Business Partner Address*
 - Bug fix: Map 'StreetNo' from source field 'HouseID' of SAP S/4HANA Cloud

PACKAGE VERSION 2202 (HOTFIX 2022-03-21)

Updated Integration Flows

1. *Replicate Products*
 - Bug fix for remarks data and {xsi:nil=true} issue
 - Remark type code externalized
2. *Replicate Product Stock*
 - Bug fix for concurrent request error
 - Support for bulk replication and filtering out special and batch stock, only unrestricted stock replicated

PACKAGE VERSION 2202 (HOTFIX 2022-03-04)

Updated Integration Flows

2. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
 - Bug fix

PACKAGE VERSION 2202 (HOTFIX 2022-02-02)

Updated Integration Flows

1. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
-

- Bug fix

PACKAGE VERSION 2202 (2022-01-26)

New Integration Flows

2. *Check Configuration for Integration of SAP S4HANA Cloud with SAP Field Service Management*
 - Integration flow to check the configuration of all transactional integration flows in the package. For more information, see [What's New](#).

Updated Integration Flows

1. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management*
 - New parameters AccountID and CompanyID have been added as the recommended parameters because the parameters Account (Name) and Company (Name) will be deprecated in future releases.
 - Performance improvements
 - **Incompatible change of the customer exit.** For more information, see [What's New](#).
 - Bug fixes
2. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
 - New parameters AccountID and CompanyID have been added as the recommended parameters because the parameters Account (Name) and Company (Name) will be deprecated in future releases.
 - Replication of reserved quantity enabled. For more information, see [What's New](#).
 - Bug fixes
3. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
 - Replication of completed activities enabled. For more information, see [What's New](#)
 - Bug fixes
4. *Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud*
 - *New parameters AccountID and CompanyID have been added as the recommended parameters because the parameters Account (Name) and Company (Name) will be deprecated in future releases.*
 - Bug fixes
5. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
 - User status of completed service items can be configured. For more information, see [What's New](#).
 - Bug fixes
6. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
 - Replication of service rendered date enabled. For more information, see [What's New](#).
 - Replication of mileage confirmation enabled. For more information, see [What's New](#).
 - Check for duplicate confirmations implemented. Additional configuration required. For more information, see [What's New](#).
7. *Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud*
 - New parameters AccountID and CompanyID have been added as the recommended parameters because the parameters Account (Name) and Company (Name) will be deprecated in future releases.
 - Support of attachment updates
 - Bug fixes
8. *Replicate Service Call from SAP Field Service Management to SAP S4HANA Cloud*

- New parameters AccountID and CompanyID have been added as the recommended parameters because the parameters Account (Name) and Company (Name) will be deprecated in future releases.
- Bug fixes

Renamed Integration Flows

1. *Replicate Item Price List*
 - Renamed to Replicate Product Price

Updated Value Mappings

1. *Value Mapping Between SAP S4HANA Cloud and SAP Field Service Management*
 - Enhancement for mileage replication

PACKAGE VERSION 2111 (2021-10-27)

Integration flows marked as deprecated in the previous releases have been removed from the package with this release.

New Integration Flows

1. *Replicate Item Price List*
2. *Replicate Service Call from SAP Field Service Management to SAP S4HANA Cloud*

Updated Integration Flows

1. *Replicate Business Partners*
 - General improvements, minor fix
2. *Replicate Business Partner Contact*
 - Minor fix
3. *Replicate Business Partner Address*
 - Partners without address will not be replicated
4. *Replicate Products*
 - Minor fix
5. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management*
 - Minor improvements
6. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
 - Updates on released service orders can now be replicated to SAP Field Service Management directly without the need of a manual rerelease of the service order
 - Bug fixes
7. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
 - Routing messages for new service calls to the new integration flow
 - Improved handling of locking errors
 - Minor fixes
8. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
 - Replication of the *PlannedDurationInMinutes* field of an activity to the *ActualServiceDuration* field of a service item
 - Bug fixes

9. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*

- Improved handling of locking errors
- Bug fixes

10. *Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud*

- Minor fixes

Renamed Integration Flows

1. *Update Service Order for Duplicate Activity from SAP Field Service Management to SAP S4HANA Cloud*

- Renamed to *Update Service Order for New Activity from SAP Field Service Management to SAP S4HANA Cloud*
- Support of the replication of activities created in SAP Field Service Management
- Bug fixes

Updated Value Mappings

1. *Value Mapping for Master Data Between SAP S4HANA Cloud and SAP Field Service Management*

- Fixed gender codes to reflect the behavior in SAP S/4HANA Cloud

PACKAGE VERSION 2108 (2021-08-04)

Notes

- The integration flows marked with **(X)** has incompatible changes.
- Package on SAP API Business Hub renamed to Integration of Service in SAP S/4HANA Cloud with SAP Field Service Management

Updated Integration Flows

1. *Replicate Asset Central Equipment*

- Added extensibility
- Changed exception handling
- Improved integration flow logic

2. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management*

- Improved customer exit

3. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*

- Added replication of main functional location
- Improved customer exit
- Improved service item filter
- Minor mapping improvements

4. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud (X)*

- Multicast extension removed
- Improved error handling
- Bug fixes

5. *Update Service Order for Duplicate Activity from SAP Field Service Management to SAP S4HANA Cloud*

- Improved error handling
- Added functional location support

- Improved customer exit (the first part of the customer extension payload now consists of the complete source FSM event)
6. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
 - Improved error handling
 - Added functional location support
 - Improved customer exit
 - Added mapping of activity PlannedDurationInMinutes to service item ActualService Duration
 7. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
 - Improved error handling
 - Improved customer exit
 8. *Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud*
 - Minor fix

PACKAGE VERSION 2105 (2021-05-07)

Note

1. *The replication of service orders has been modernized: As of SAP S/4HANA Cloud 2105, the integration flow Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management handles all service order replication tasks.*
2. *Also, the replication of the service order status ReleaseRevoked has been implemented in this release. Due to this change, the integration flow Notify Service Call Update from SAP S4HANA Cloud to SAP Field Service Management is no longer needed.*
3. *To enable the new functionality, refer to the setup instructions on [Configuring SAP Event Mesh Service Instances](#) (previously known as SAP Enterprise Messaging Service).*
4. *Once the configuration is adjusted, the integration flow Notify Service Call Update from SAP S4HANA Cloud to SAP Field Service Management can be undeployed.*

Updated Integration Flows

1. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management*
 - Replication of notes
 - Minor fixes
2. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
 - Replication of notes
 - Replication of stock spare parts
 - Holistic date handling
 - FSM status code configurable via value mapping
 - Replication of FSM service call and activity codes to SAP S/4HANA Cloud
 - Replication of revoking a released service order
 - Minor fixes
3. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
 - Minor fixes
4. *Update Service Order for Duplicate Activity from SAP Field Service Management to SAP S4HANA Cloud*
 - Replication of FSM service call and activity codes to SAP S/4HANA Cloud for duplicated activities
 - Note type and language is now configurable
 - Minor fixes

5. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
 - Replicate service call updates and equipment changes
 - Replication of notes
 - Activity contact replicated to service order item contact
 - Bug fixes
6. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
 - Bug fixes
7. *Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud*
 - Minor fixes
8. *Create Business Partner Relationship*
 - Minor fixes
9. *Replicate Business Partner Address*
 - Minor fixes
10. *Replicate Business Partner Contact*
 - Minor fixes
11. *Replicate Business Partners*
 - Minor fixes
12. *Replicate Product Stock*
 - Minor fixes
13. *Replicate Products*
 - Externalized language for product description
 - Minor fixes

Deprecated Integration Flows

1. *Notify Service Call Update from SAP S4HANA Cloud to SAP Field Service Management*
2. *This integration flow has been replaced with the integration flow Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management, see [note](#).*

Updated Value Mapping

1. *Value Mapping Between SAP S4HANA Cloud and SAP Field Service Management*
2. *New value mapping for service order status to service call status has been added.*

PACKAGE VERSION 2102 (HOTFIX 2021-03-12)

Updated Integration Flows

1. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
 - Bug fix

PACKAGE VERSION 2102

1. The error handling of the integration flows marked with **(X)** have incompatible changes.

2. After updating the integration package, email notifications that have already been configured will not work any longer, but the integration flows must be reconfigured and deployed if you want to use the functionality to send error information as emails.
3. Additionally, the new integration flow Send Error Email for Integration SAP S4HANA with SAP Field Service Management must be configured and deployed.
4. The sender adapter of the integration flow Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management was changed to SOAP to avoid unnecessary error messages in the monitoring of the sender system. This change is incompatible. Reconfigure the endpoint in the communication arrangement in the sender system. For details, see the document "[Setting Up Integration with SAP Field Service Management](#)" attached to the package.

New Integration Flows

1. *Send Error Email for Integration SAP S4HANA with SAP Field Service Management*

Updated Integration Flows

1. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management (X)*
 - Improved exception handling
 - Improved monitoring
 - Minor fixes
2. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management (X)*
 - Improved exception handling, improved monitoring, minor fixes
3. *Replication of reserved material on activity level enabled*
 - Main equipment replication enabled
 - Contact person replication enabled
4. *Notify Service Call Update from SAP S4HANA Cloud to SAP Field Service Management (X)*
 - Improved exception handling
 - Improved monitoring
5. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud (X)*
 - Improved exception handling, improved monitoring
 - Completion of SAP S/4HANA service order/items disabled
6. *Update Service Order for Duplicate Activity from SAP Field Service Management to SAP S4HANA Cloud (X)*
 - Improved exception handling
 - Minor fixes
7. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud (X)*
 - Improved exception handling
 - Improved monitoring
 - Minor fixes
 - Replication of activity subject
8. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud (X)*
 - Improved exception handling, improved monitoring, minor fixes
9. *Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud (X)*
 - Improved exception handling, improved monitoring
10. *Create Business Partner Relationships (X)*
 - Improved exception handling, minor fixes
11. *Replicate Business Partner Address (X)*

- Improved exception handling
- 12. *Replicate Business Partner Contact (X)*
 - Improved exception handling, minor fixes
- 13. *Replicate Business Partners (X)*
 - Improved exception handling, minor fixes
- 14. *Replicate Product Stock (X)*
 - Improved exception handling, minor fixes
- 15. *Replicate Products (X)*
 - Improved exception handling, minor fixes

Deprecated Integration Flows

1. *Master Data Exception Handling Between SAP S4HANA Cloud and SAP FSM*
2. *Replaced by integration flow Send Error Email for Integration SAP S4HANA with SAP Field Service Management*

PACKAGE VERSION 2011 (HOTFIX 2021-01)

New

1. *Added a link to the SAP Cloud Integration Automation Service for setting up the integration of SAP S/4HANA Cloud with SAP Field Service Management*

PACKAGE VERSION 2011

1. *Due to the improvements in exception handling, the integration flows marked with (X) must be reconfigured after updating the integration package.*

New Integration Flows

1. *Master Data Exception Handling Between SAP S4Hana Cloud and SAP FSM*
2. *Replicate Attachments from SAP Field Service Management to SAP S4HANA Cloud*

Updated Integration Flows

1. *Create Business Partner Relationships (X)*
 - Added extensibility
 - Exception handling changed
2. *Replicate Business Partner Address (X)*
 - Added extensibility
 - Exception handling changed
 - Minor fixes
3. *Replicate Business Partner Contact (X)*
 - Added extensibility
 - Exception handling changed
 - Minor fixes
4. *Replicate Business Partners (X)*
 - Added extensibility

- Exception handling changed
 - Minor fixes
5. *Replicate Product Stock (X)*
 - Added extensibility
 - Exception handling changed
 6. *Replicate Products (X)*
 - Added extensibility
 - Exception handling changed
 7. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management*
 - Minor fixes
 8. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
 - Support of service order re-release
 - Improved error handling
 - Minor fixes
 9. *Notify Service Call Update from SAP S4HANA Cloud to SAP Field Service Management*
 - Minor fixes
 10. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
 - Minor fixes
 11. *Update Service Order for Duplicate Activity from SAP Field Service Management to SAP S4HANA Cloud*
 - Minor fixes
 12. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
 - Minor fixes
 13. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
 - Minor fixes

Updated Value Mapping

1. *Value Mapping Between SAP S4HANA Cloud and SAP Field Service Management*

PACKAGE VERSION 2008

Updated Integration Flows

1. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management*
 - Adapted FSM API headers
2. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
 - Service team (RespyMgmtServiceTeam) to region mapping removed
 - Updated default FSM API address to use FSM Connector
3. *Notify Service Call Update from SAP S4HANA Cloud to SAP Field Service Management*
 - Adapted XPath selectors to be compatible with the old and new BEH topic name
4. *Adapted FSM API headers*
 - Updated default FSM API address to use FSM Connector
5. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*

- Default values of externalized parameters adapted
6. *Update Service Order for Duplicate Activity from SAP Field Service Management to SAP S4HANA Cloud*
 - Updated default FSM API address to use FSM Connector
 - Default values of externalized parameters adapted
 7. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
 - Error handling adapted
 - Added item note replication
 8. *Replicate Products*
 - Added externalized parameter for maximum message size

PACKAGE VERSION 3.1.1

Updated Integration Flows

1. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management*
 - Fixed email authentication externalized error
 - Fixed call FSM API externalized error

PACKAGE VERSION 3.1.0

New Integration Flows

1. *Replicate Service Contract from SAP S4HANA Cloud to SAP Field Service Management*
2. *Replicate Product Stock*

Updated Integration Flows

1. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
 - Support transfer service team internal ID when creating activity
2. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
 - Performance tuning
3. *Create Business Partner Relationship*
 - Fixed email authentication externalized error
 - Fixed customer to Contact-Relationship is not replicated error
4. *Replicate Business Partner Address*
 - Fixed email authentication externalized error
5. *Replicate Business Partner Contact*
 - Fixed email authentication externalized error
6. *Replicate Business Partners*
 - Fixed email authentication externalized error
7. *Replicate Products*
 - Support multiple language for product description
 - Fixed email authentication externalized error
8. *Replicate Asset Central Equipment*

- Fixed email authentication externalized error
9. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
 - Fixed target XSD file to make some fields optional error

PACKAGE VERSION 3.0.0

New Features

- Update service planned start date and end date from SAP Field Service Management activity to SAP S/4HANA service item
- Support for unplanned expense and spare part
- Support for unassignment & reassignment of an activity to a technician
- Provide extensibility in certain integration flows

Updated Integration Flows

1. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
2. *Replicate Business Partner Contact*
3. *Replicate Business Partner Address*
4. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
5. *Replicate Products*
6. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
7. *Route Payload from SAP Field Service Management to SAP S4HANA Cloud*
8. *Update Service Order for Duplicate Activity from SAP Field Service Management to SAP S4HANA Cloud*

PACKAGE VERSION 2.0.0

New Features

1. *Support of the service order type Fixed price service order (SVO2).*

Updated Integration Flows

1. *Notify Service Order Update from SAP Field Service Management to SAP S4HANA Cloud*
2. *Replicate Confirmed Service from SAP Field Service Management to SAP S4HANA Cloud*
3. *Replicate Service Order from SAP S4HANA Cloud to SAP Field Service Management*
4. *Update Service Order for Duplicate Activity from SAP Field Service Management to SAP S4HANA Cloud*

PACKAGE VERSION 1.0.0

1. *First version delivered.*
