# 1 Document Compliance for Chile - Configuration of Value Mappings for Status Codes

If the Chilean tax authorities (SII) introduce a new status code, you must configure the value mappings in SAP Cloud Platform Integration for each new status code as described below.

Follow the steps below to configure the value mappings for a status code:

1. Access your CPI tenant using the application URL for "itspaces".
2. Under the **Design** tab, open the **eDocument: Electronic Invoicing for Chile** integration package.

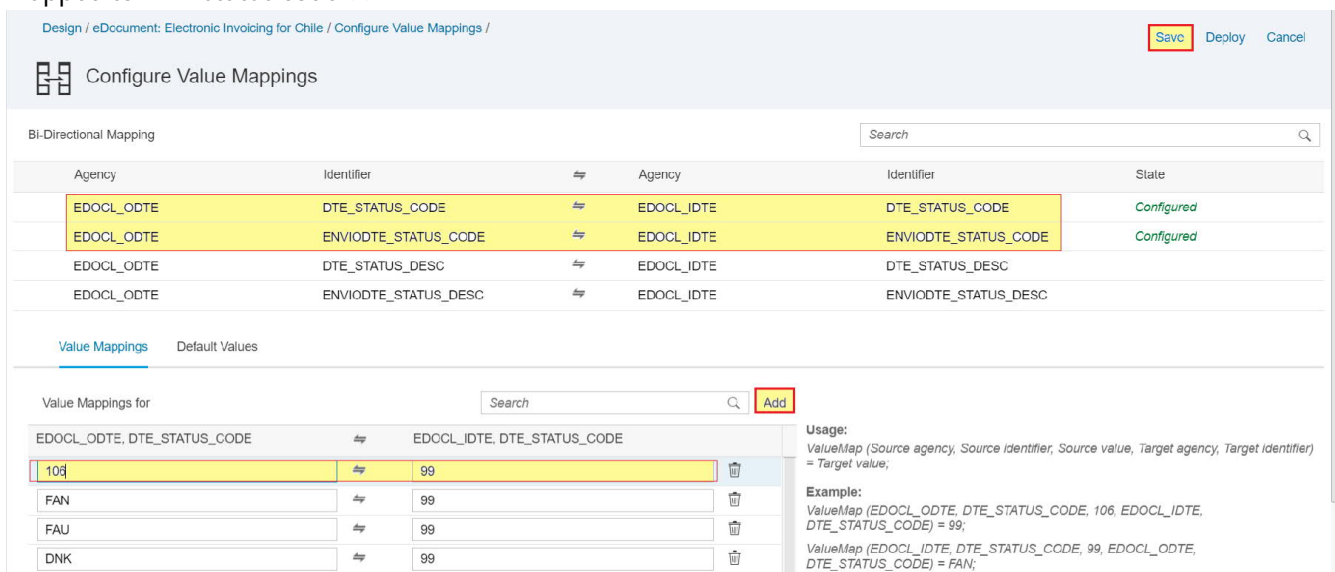

3. Select the **Value Mappings** artifact.

4. Choose the **Configure** option for the **Value Mapping** artifact.

5. Add a new value mapping for the bi-directional mappings with identifiers **DTE\_STATUS\_CODE** and **ENVIODTE\_STATUS\_CODE** as shown in the example below. In this example, the SII status code 106 is mapped to IDTE status code 99.

6. Save your changes and deploy the **Value Mappings** artifact.

# Important Disclaimers and Legal Information

## Hyperlinks

Some links are classified by an icon and/or a mouseover text. These links provide additional information. About the icons:

- Links with the icon  : You are entering a Web site that is not hosted by SAP. By using such links, you agree (unless expressly stated otherwise in your agreements with SAP) to this:
- The content of the linked-to site is not SAP documentation. You may not infer any product claims against SAP based on this information.
- SAP does not agree or disagree with the content on the linked-to site, nor does SAP warrant the availability and correctness. SAP shall not be liable for any damages caused by the use of such content unless damages have been caused by SAP's gross negligence or willful misconduct.
- Links with the icon  : You are leaving the documentation for that particular SAP product or service and are entering a SAP-hosted Web site. By using such links, you agree that (unless expressly stated otherwise in your agreements with SAP) you may not infer any product claims against SAP based on this information.

## Beta and Other Experimental Features

Experimental features are not part of the officially delivered scope that SAP guarantees for future releases. This means that experimental features may be changed by SAP at any time for any reason without notice. Experimental features are not for productive use. You may not demonstrate, test, examine, evaluate or otherwise use the experimental features in a live operating environment or with data that has not been sufficiently backed up.

The purpose of experimental features is to get feedback early on, allowing customers and partners to influence the future product accordingly. By providing your feedback (e.g. in the SAP Community), you accept that intellectual property rights of the contributions or derivative works shall remain the exclusive property of SAP.

## Example Code

Any software coding and/or code snippets are examples. They are not for productive use. The example code is only intended to better explain and visualize the syntax and phrasing rules. SAP does not warrant the correctness and completeness of the example code. SAP shall not be liable for errors or damages caused by the use of example code unless damages have been caused by SAP's gross negligence or willful misconduct.

## Gender-Related Language

We try not to use gender-specific word forms and formulations. As appropriate for context and readability, SAP may use masculine word forms to refer to all genders.
