

Update Payment Plan – TCODE: EK93

Project Name: Utilities – EK93 - Update Payment Plan

Version	Description
1.0.0	Update Payment Plan – EK93 (TCODE)

INTRODUCTION

This bot is used to update the payment plan at EK93 transaction. This entire process will be automated.

- Will be supported for SAP Logon on-premise.

IMPORTANT NOTE

General

To use this sample, you need to have a basic knowledge and understanding of SAP Intelligent Robotic Process Automation tool. At the very least you need to know how to import a project, add and modify activities, build the solution, and export a package.

Required Inputs:

Input Field	Description
PaymentPlan	Payment Plan to be updated/changed.
Amount	Amount which needed to be entered in EK93.

DESCRIPTION

Using SAP Intelligent RPA this bot will be able to do the repeated task of entering same amount at each field in EK93 of a given payment plan.

Key Process Flows

- The bot takes input details (i.e., Payment Plan, Amount) from user.
- Opens transaction from any session of the SAP Logon (SAP GUI), without interrupting user's work.

Note: Maximum number of Sessions should be below 6.

- Opens EK93 transaction.
- Updates the new amount.

Business Benefits

- Reduce manual effort—an employee can concentrate on the more important tasks
- Ensure fast updating of payment plan amount

VERSION

The product versions used to generate this sample are detailed below. This sample is provided “as is,” with no warranty that it will work correctly with other versions. If some versions of your software are different (such as the tool version or the target application version), you may need to recapture the application and/or update the workflow activities.

SAP Intelligent RPA

The table below details the versions used to generate this sample.

Software	Version
Cloud Studio	2.0
Desktop Agent	2.0.10.58

Target Application	Version
Saplogon.exe	750

The automation works on SAP GUI for Windows version 770 as well.

PREREQUISITES

Global setup:

SAP Intelligent Robotic Process Automation must be installed in accordance with the installation guide available [here](#). An SAP Intelligent RPA Factory must be available with a suitable environment and a hierarchy. All information can be found in the “Getting Started” section accessible via the above link.

Configuration:

The bots are designed to be executed in attended mode only.
