# SAP Cloud for Customer Integration with SAP CPQ - Change log

**Date:** 14-Nov-22

**Artifact:** Replicate Quote from SAP CPQ - Quote 2.0

**Version:** 1.1.1

**Description:** Enabled 'Private key alias' configuration parameter from receiver name 'C4C\_Confirmation'.

**Date:** 21-Oct-22

**Artifact:** Replicate Quote to SAP CPQ - Quote 2.0

**Version:** 1.2.1

**Description:** The extra characters are trimmed for Party Name field so that only 40 characters are passed to SAP Cloud for Customer.

**Date:** 25-Aug-22

**Artifact:** Replicate Quote from SAP CPQ - Quote 2.0

**Version:** 1.1.0

**Description:** Connect the S/4 sales order id with the succeeding Quote documents in SAP Cloud for Customer. This can be enabled by parameter configuration of iflow. It is useful in scenarios where direct sales order replication to SAP Cloud for Customer is not supported. Hence using this confirmation setting iflow will update the sales order id in SAP Cloud for Customer.

**Date:** 17-May-22

**Description:** In current publication following features/corrections are included:

- Renaming of all iflows in the package with suffix Quote 1.0 or Quote 2.0 for better readability
- Support of different Quote Owner while creating CPQ quote in both Quote 1.0 and Quote 2.0 version
- Support of C4C prospects in Quote 2.0 iflows
- Minor bug fixes e.g., correction in post exit scenario namespaces for Quote 2.0 iflows.

**Date:** 28-Feb-22
